

Cycle lanes on Milton Road to be implemented as part of ATF2 Walking and Cycling Improvement Corridor due for completion in summer 2022

Key:	
	Baker St Improvements
	Double yellow lines
	Existing driveway
	Proposed planted build outs
	Proposed surface treatment
	Existing tree
	Proposed tree and shrubs

Potential Car Club and/or EV charging bay

Change in priority at the junction with Clarendon Road to slow traffic down approaching Beaufort Road

Cycle access to Hill Road highlighted by new landscaping

Pavement extended across junctions to eliminate rat running through traffic and provide turning space

New Zebra crossing to improve accessibility to local school

New 20mph speed limit

Gateway feature to include two planted build outs set back to allow maneuvering in and out of the junction
